

Infection of COVID-19 from the the Equipment	Site users	Gloves are to be work by the partisepants due to the fact that the Ropes cannot be cleand. The Helmets are to be Miltond after their use. They will be left in the Milton mix for 15 minutes and then left to dry over night. Due to this only one group per day will be possible as the helmets will need time to be treated and dried. The other additional items (Duck, Cups etc,) will not be used and have been taken out of cirulation for the time being.	L	H		
Infection of site staff/site volunteers while setting up and putting away the equipment before and after the session.	Site staff/site volunteers	Site staff/site volunteers setting up the activity will need to wear gloves to protect themselves. At the end of the session site staff/site volunteers (wearing gloves) will need to thoroughly clean down all the helmets before putting them away. Gloves will be thrown away once cleaning has been completed and the bin bag sealed and disposed of in the main site bin.	L	H		

Decision: once all the actions are carried out, can you manage the risk and go ahead with this event or activity? (ie have a degree of challenge and risk whilst keeping girls safe)	Yes x No
If you answered 'no' to the above 'Decision' questions please explain why:	

Risk Assessment completed by: Matthew Bonewell - Site Manager insert name and role	Date completed:	1/12/2020
Has the Risk Assessment been shared with the leadership team?		Yes No
Risk Assessment due for review: insert date (no more than 12 months time)	Date:	1/11/2021

Risk assessment form

What to do

How to do it

← Look at things that can cause injury or damage, thinking about activity, location and surroundings

← Think about the people around, not just members, who could be injured or affected by the activity

← See matrix below. Think about how serious the risk is to people and property. What is already in place to prevent the injury or damage and does this reduce the risk?

← List actions required to reduce risk. Decide if you want to go ahead.

← Make sure everyone knows what they are going to do and by when. Make sure it is done and record it

Severity \ Likelihood	Slight harm superficial injuries, minor cuts and bruises	Harmful minor fractures, ill health leading to minor disability	Extremely harmful multiple injuries, major fractures, fatalities
Unlikely Rarely happens	Low	Low	Medium
Likely Often happens	Low	Medium	High
Very likely Nearly always happens	Medium	High	High
