

# Risk Assessment: Event/Activity

Using this template, you should risk assess activities, trips and events in line with Girlguiding’s Risk Assessment Policy. Using the information on the website and this cover page, you should be able to identify effective risk management strategies and tasks to ensure that activities run safely and effectively.

For more information or support with risk assessments, please speak to your local commissioner.

- **Hazards** are anything that has the potential to cause harm (e.g. cars, trip hazards, exposed electrical wires, theft, etc.).
- **Risk** is the likelihood of something happening, combined with the severity of the harm that could be caused by one or more hazards

Risk management is a dynamic cycle that needs to be repeated in order to effectively manage risk. The frequency of reassessment will depend on activity, and new risks could occur that have not previously been assessed. In this instance, a dynamic risk assessment is required.

Severity Likelihood	Slight harm (Superficial injuries, minor cuts and bruises)	Harmful (Minor fractures, ill health leading to minor disability)	Extremely harmful (Multiple injuries, major fractures, fatalities)
Unlikely (Rarely happens)	Low risk	Low risk	Medium risk
Likely (Often happens)	Low risk	Medium risk	High risk
Very likely (Nearly always happens)	Medium risk	High risk	High risk
